## HB 1970 DEAD LOCK SERIES

### 55 mm BACKSET PIVOT/BI-FOLD LOCKING DOOR SET

Designed for where a sense of scale is required, the HB1970 Series is a set with more impact than the traditional size recessed handle. The deeper finger grip in the flush pull make these an ideal choice for thicker timber pivot/hinge doors, and being fabricated from zinc diecast allows for cost effective use in both commercial and residential projects.

The set utilises the HB1920 or HB1930 flush pulls, and the HB2025 55mm backset deadbolt lock body, particularly useful where weather or noise seals are installed, or where a greater distance from the door edge is required. For a two prong sliding bolt version with 55mm backset please see the HB1970 Series. Also available in 30mm backset (see the HB1950 Series).

HB 1970 – Deadbolt Set, HB 2025 Body, HB 1930 Keyhole Pull Both Sides

HB 1972 – Deadbolt Set, HB 2025 Body, HB 1930 Keyhole One Side, Blank Outside

HB 1973 – Deadbolt Set, HB 2025 Body, HB 1930 Keyhole One Side Only
