## HB2200 SERIES OFFSET D PULLS

HB2237, HB2247

Extending the flexibility of the HB2200 Series solid brass D Pulls, the HB2237 and HB2247 Offset D Pulls, allow installation on bi-parting doors and where narrow stiles on a door would leave a straight D Pull too close to the frame. Offset pulls are ideal for allowing extra hand room, and make a design statement in their own right.

Milled in solid brass, Offset D Pulls come in two centre to centre 300mm and 600mm lengths and are available in 4 finishes Aged Brass, Polished Brass, Satin Brass, and Black Chrome. Please note that all brass finishes are unlacquered and will age gracefully over time. Pulls come with a variety of fixing sets as below, along with a matching HB2260 Knob, as an option for single side fixing.

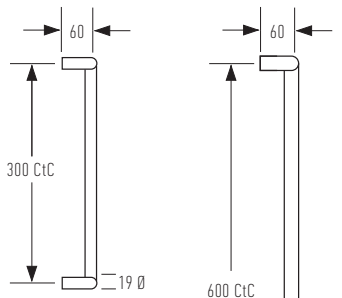

All D Pulls are sold with an additional solid brass rose. Installation of the rose is optional depending on your aesthetic, but it is strongly recommend for use on soft wood timbers such as cedar and pine.

Center to Center length : 300mm & 600mm  
Projection : 60mm (without rose)

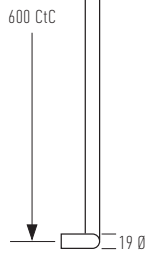

Available in selected finishes including Aged Brass, Polished Brass, Satin Brass, and Black Chrome.
