## HB 678

FLUSH D PULL 170mm

Inspired by the popular HB 675 Bi-fold Flush Pull, the HB 678 has been developed with flexibility in mind. With an integrated D Handle within the flush pull itself, the HB 678 does double duty as both flush pull and pull handle. Useful where flush mounting is required, but the additional grip of a handle is desirable.

Flush D Pulls are suitable for surface sliding doors, pivot, or bi-fold doors and cabinetry. Ball bearings in the casing hold the D Handle in place when closed. For the longer 250mm version, please see the HB 679.

Material : Diecast Zinc and Brass

Dimensions : 170 x 50 x 19

D Handle Projection : 28mm from face of flush pull

Suitable for timber or aluminium doors.

Available in electroplate finishes only (powder coat unavailable). See finishes sheet for further details.

To be used with the HB 604 Timber Fixing Kit on timber doors, sold separately.

Designed and manufactured in New Zealand. For more information, installation templates, and measured drawings of this product and others please visit : [www.hallidaybaillie.com](http://www.hallidaybaillie.com) or contact your authorized Halliday + Baillie dealer. All information subject to change.
