

To be used with the HB 604 Timber Fixing Kit on timber doors, sold separately.

HB 679

FLUSH D PULL 250mm

Matching the HB 677 Bi-fold Flush Pull, the HB 679 has been developed with flexibility in mid. With an integrated D Handle within the flush pull itself, the HB 679 does double duty as both flush pull and pull handle. Useful where flush mounting is required, but the additional grip of a handle is desirable.

Flush D Pulls are suitable for surface sliding doors, pivot, or bi-fold doors and cabinetry. Ball bearings in the casing hold the D Handle in place when closed. For the shorter 170mm version, please see the HB 678.

Material : Diecast Zinc and Brass

Dimensions : 250 x 50 x 19

D Handle Projection : 28mm from face of flush pull

Suitable for timber or aluminium doors.

Available in electroplate finishes only (powder coat unavailable). See finishes sheet for further details.

Designed and manufactured in New Zealand. For more information, installation templates, and measured drawings of this product and others please visit : www.hallidaybaillie.com or contact your authorized Halliday + Baillie dealer. All information subject to change.
