HB 2050 SERIES STRIKE PLATES

Both standard and dual action strike plates have been designed for use with the HB 2050 Adjustable Roller Mortice. Strikes are available in both brushed stainless steel and black chrome.

The HB 2050 standard strikes are handed with a bent lip along the leading edge and bent roller ball receiver. Strikes are counter sunk on one side only, so handing information is required for for order.

The dual action strike also includes a bent lip along the leading edge and counter sinking on one side.

All Strike plates are fabricated from 2mm thick stainless steel, and ship with a coloured dust box designed to be held in place with the adhesive strips provided.

Strike plates for rebated doors are available on request – please see the “HB 2050 REBATED STRIKE PLATES” information sheet for further information.

Custom strikes can be manufactured on a volume basis – please contact your local Halliday + Baillie representative.
