

HB 3370

EXTRA LONG OFFSET FLUSH PULL BLANK 13.78"

The HB 3370 and HB 3375 flush pulls offer a simplified system to lock sliding doors. This pared back approach utilises a flush pull with an offset grip for ease of use with heavy sliders that can be used in conjunction with various sliding locks.

With fewer moving parts the HB 3370 provides scale on oversized doors as a large-scale flush pull. When used as part of a locking set in coastal conditions where sea spray and atmospheric particulates can impact long term use, the lack of moving parts makes it an ideal option.

When used with the HB 2010 / HB 2020 Sliding Mortices or the HB 2015 / HB 2025 Deadbolts these provide a secure, low maintenance solution for a variety of exterior doors from heavy sliders to pivot doors. Can be used in a variety of configurations with the HB 3375 keyhole version.

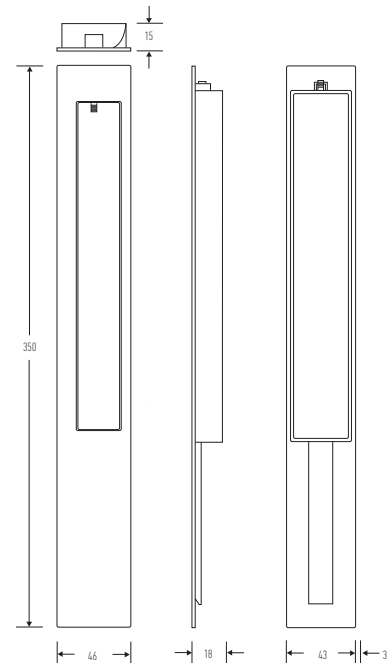

Each Flush Pull is shipped with one set of the HB 604 Timber Fixing kits.

Available in both right and left-handed flush pulls – please specify handing for order.

Material : Diecast Zinc and Brass
Dimensions : 13.78" x 1.81" x 0.71"
Internal grip depth : 0.63"

Suitable for large timber or aluminum doors.

Available in all standard Halliday + Baillie finishes. Please check with your H+B representative as not all finishes are available in all regions. See finishes sheet for further details.
